📍 Pune

Ambitious first-year CSE (AI/ML) student with hands-on experience in AI-powered web development, data analysis using Tableau, and Python automation projects. Strong in problem-solving, API integration, and data visualization, with keen interest in Generative AI and Machine Learning applications. Seeking opportunities to apply analytical and technical skills in real-world projects.

SKILLS

- Python
- HTML, CSS, React
- API Integration
- Problem Solving
- Team Collaboration
- Git & GitHub
- Leadership & Team Management

EXPERIENCES

Singularity – AI Hackathon (Parsec 6.0) | IIT DHARWAD

- Collaborated in a team to build AI-based solutions for real-world problems
- Applied machine learning concepts under time-bound competitive conditions
- Strengthened teamwork and innovative thinking skills

Course Project & ASEP Project – Group Leader

- Led a team of 4 members in planning, development, and successful execution of academic projects
- Coordinated task distribution, project documentation, and final presentation delivery
- Ensured timely completion of milestones and maintained project quality standards
- Received A+ Grade in ASEP (Applied Science & Engineering Project) for technical implementation and innovation

PROJECTS

NutriScan – AI-Powered Web Application for Nutritional Analysis

Technologies: JavaScript, React, Open APIs, Web Camera Integration

- Built a web app to scan food barcodes and retrieve structured nutritional data
- Implemented API-based pipeline for real-time product validation and nutrition extraction
- Displayed macronutrient breakdown and product image using dynamic UI components
- Automated barcode-based retrieval to reduce manual lookup effort
- Designed scalable architecture supporting camera scanning and manual input

E-Commerce Customer Analysis & Forecasting with Tableau

Tools: Tableau, Excel, Data Visualization

- Processed and analyzed 60,000+ sales records from Kaggle Superstore dataset
- Designed interactive dashboards with filters, maps, heatmaps, and KPI metrics

- Conducted profit vs discount analysis to optimize pricing strategy insights
- Performed regional demand forecasting using Tableau time-series models
- Improved decision-making efficiency through automated visual reporting

Student Budget Analyzer

Tech Stack: Python, File I/O, Structured Programming

- Built a console-based budgeting system to manage income and multi-category expenses
- Implemented persistent storage using file handling for real-time data retrieval
- Designed algorithm to compute total expenditure and dynamic savings estimation
- Developed category-based analytics for expense distribution insights
- Demonstrated practical application of Python fundamentals in financial automation

EDUCATION

B.Tech – Computer Science Engineering (AI & ML)

June 2025 – June 2029

Vishwakarma Institute of Technology (VIT), Pune

SGPA: 8.9

Higher Secondary (12th) – Dr. Khatri Junior College, Chandrapur

June 2024– April 2025

Percentage: 81.33%

Secondary (10th) – St. Michael’s English School, Chandrapur

April 2022 – May 2023

Percentage: 94.20%

CERTIFICATIONS

- **Singularity – AI Hackathon (Parsec 6.0)** – Indian Institute of Technology Dharwad (Jan 2026)
- **Python Programming** – Kaggle (Jan 2026)
- **Introduction to Deep Learning** – Infosys Springboard (Dec 2025)
- **Introduction to Artificial Intelligence** – Infosys Springboard (Dec 2025)

INTERESTS

- Artificial Intelligence & Machine Learning
- Generative AI & Emerging Technologies
- Data Analytics & Visualization
- Building AI-Based Web Applications
- Problem Solving & Competitive Programming

PERSONAL DETAILS

- Date of Birth: 02/08/2007
- Languages Known: English, Hindi, Marathi
- Nationality: Indian

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief..

Place : Pune

Date: 01/03/2026

A handwritten signature in blue ink that reads "Prathamesh". The signature is written in a cursive style and is underlined.

Prathamesh Prashant Daph
