EDUCATION

Vishwakarma Institute of Technology (VIT)

Feb 2026

Bachelor of Technology (Computer Science and Engineering (Artificial Intelligence and Machine learning))

CGPA: 9.65/10.00 (First Class with Distinction)

JEE MAINS

April 2025

96 Percentile

MHT-CET

Jun 2025

98 Percentile

Nashik Presidency Junior College

May 2025

12 board: 80/100

11 Standard: 90/100

S.T. Francis High School

May 2023

10 Board: 91/100

SKILLS

Programming Languages: C++, Java, C, Python

Databases: MongoDB

Tools & Practices: Object-Oriented Programming, Git, Docker, Linux, Ubuntu

PROJECTS

Autonomous Water Surface Cleaning Robot

- Designed and engineered an autonomous robot to identify and clear debris from water bodies.
- Developed a navigation system using Arduino and integrated propulsion modules for aquatic stability.
- Managed the full project lifecycle from CAD design to hardware implementation.

Smart Blind Stick

- Developed a mobility aid for the visually impaired using two ultrasonic sensors for 110-degree obstacle detection.
- Integrated tactile vibration feedback and a buzzer system to alert users of nearby hazards.

Web Activity Tracker

- Built a Python-based desktop application to monitor browsing habits and identify "distraction" websites.
- Implemented a countdown timer and voice notifications (using pyttsx3) to alert users when time limits are reached.

Personal Portfolio & Media Tools

- Created a minimalist portfolio website using Flask and custom CSS spotlight effects.
- Developed custom Python applications, including a media player and logic-based games.

Extracurricular Activities & Interests

- **Photography:** Passionate photography enthusiast with a focus on detail and creative composition.
- **Technical Research:** Active interest in CPU undervolting, hardware optimization, and the latest consumer tech markets, Linux and its distros
- **Leadership:** Involved in Student Council activities at VIT, Pune, Volunteer in Vclick Multimedia.
