

# SIDDHARTH GANAPATHY SARMA

(412) 513-1300 | ssarma2@andrew.cmu.edu | <https://www.linkedin.com/in/siddharth-sarma/>

---

## EDUCATION

### Carnegie Mellon University

Dec 2026

*Master of Software Engineering – Scalable Systems*

Relevant Courses: Design Patterns, API Design, Agile Methods, Quality Assurance, Stats for Decision Making, Software Architecture, DevOps Engineering, Distributed Systems, LLM Systems, Communications for Software Leaders

CGPA: 3.98/4.00

### Maharashtra Institute of Technology, World Peace University (MITWPU)

Jun 2023

*Bachelor of Technology (Computer Science and Engineering)*

CGPA: 9.65/10.00 (First Class with Distinction)

---

## SKILLS

**Programming Languages:** C++, Java, JavaScript, TypeScript, C, Python

**Frontend & Mobile:** React, React Native, Angular

**Backend:** Node.js, Express, Spring Boot, GraphQL

**Databases:** Oracle, MySQL, MongoDB

**Tools & Practices:** Object-Oriented Programming, Performance Optimization Git, Docker, Kubernetes, CI/CD, GCP

**Engineering Focus:** Performance Analysis, Code Maintainability, Scalable System Design, Design Patterns

---

## PROFESSIONAL EXPERIENCE

### Deutsche Bank Group

Pune, India

*Senior Analyst (Software Engineering)*

Sep 2024 – Jul 2025

- Engineered and optimized a global monitoring system, identifying and resolving performance bottlenecks in alert-generation workflows; reduced investigation turnaround time by **50%** and increased traceability by **80%**
- Migrated **10+ applications** to Google Cloud Platform, improving scalability and reducing infrastructure costs by **35%**
- Applied secure coding and unit-testing practices to ensure data integrity and maintainability in regulated systems.

*Graduate Analyst (Software Engineering)*

Jul 2023 – Aug 2024

- Designed an interactive **DAG-based visualization feature** in Angular to model complex Trade Surveillance workflows, improving clarity and usability for internal users
- Debugged and remediated **critical security and reliability issues** across **20+ microservices**, improving system robustness and compliance posture

### Volkswagen Group Digital Solutions

Pune, India

*Software Engineering Intern*

Apr 2022 – Jul 2022

- Developed backend services for an **AI/IoT platform** using Java and Spring Boot, supporting real-time data ingestion and system monitoring
- Improved fault detection and observability logic, increasing operational efficiency by **30%**

---

## PROJECTS

### Global Hackathon, Dementia UK – Deutsche Bank Group

Jul 2024 – Aug 2024

- Developed a cross-platform mobile application using **React Native**, focusing on usability, accessibility, and secure handling of user data; Integrated AI-powered features including voice-to-text cognitive assessments and intelligent chatbots to deliver a working prototype in **24 hours**

### Super Resolution DEMs from Low-Resolution Satellite Data – MITWPU, Capstone

Jan 2023 – Jun 2023

- Analogized different Generative Adversarial Networks (GANs), including a custom-trained GAN to super-resolve low-resolution Digital Elevation Models (DEMs) for ISRO's mission planning

---

## AWARDS AND ACHIEVEMENTS

- Excellence Award – Investment Bank & Anti-financial Crime and Compliance**, Deutsche Bank, Nov 2024
- Google Cloud Platform Associate Cloud Engineer (ACE)** – Certified, May 2025
